Hand and Perkins Chosen GLF Directors at Annual Meet

Session held in village hall Monday night—Dean Kelsey speaks and shows motion pictures—Sheldon Stewart is chairman of gathering—Dividend checks distributed.

Ralph Hand and Sam Perkins were elected to the board of directors of the Addison Cooperative GLF Inc., at the annual meeting held Monday night in the village hall. There were about 150 present when Chairman Sheldon Stewart called the meeting to order and extended a welcome to all. Mark Hilfiger, manager of the local store and secretary of the local corporation read the call for the meeting.

Directors introduced were Mr. Hand, Leon Andrews, Frank Bates and Bert Jimerson representing the patrons' committee. Mr. Andrews stated the duties of the patrons' committee is to determine store policy and guide the manager in that policy and to help the patrons use the cooperative more intelligently. Mr. Jimerson gave as his idea of the committee to provide buildings and equipment and to keep both in order. Mr. Hand stated the committee can determine needs of farmers and strengthen the organization to meet these needs.

Dean Kelsey, district manager spoke on "Democracy" and compared the policy of our democratic system of the GLF. He pointed out that the asking price of feed or GLF products is not the final price as there is the dividend check on earnings, the store dividend, return on bag program, cash discount and the division of the net worth of the store to every trader there.

He said in part, "We in this democracy take for granted our responsibilities to government. Today the freedom for the individual is challenged and we may have to defend our right to it. Might makes right in Europe. And only now are we looking the truth in the face. Brain trust planning has

School Board Discusses Paint Bids—Other Business Transacted

Committees announced by President Miller—Tentative calendar drawn for year—Leon Callahan appointed member of Board.

Considerable discussion of paint purchases and painters developed at the July meeting of the Board of Education Tuesday night. The discussion was brought to a head by Trustee Knebel who stated that the paint for refinishing part of the interior of the school had been contracted for before the bids had been submitted to many of the paint dealers in the community. He stated he did not object to the paint contract being awarded to Frank Whitmore, but he did object to the purchase being made before the bids had been submitted to all dealers. He also felt that as a member of the purchasing committee he should have been consulted on the purchase.

Trustee Baxter of the building committee stated he misunderstood the action taken at the meeting held earlier in the month and understood that the building committee was to purchase the paint, which he had done. Mr. Knebel said that all committeemen should be consulted when an action was to be taken and not just one member of the committee. Mr. Knebel also questioned hiring one painter without giving others an opportunity to do the work.

Leon Callahan who was recently elected to membership on the board was inducted without formal ceremony. He took his place on the board Tuesday night.

Hi-Lights and Shadows of the Week's News

The air war against Britain tapered off the latter part of last week, only to be renewed with greater droves of planes Monday. For the first time the attack settled on the coast town of Dover as clouds of planes came across the channel in formations of eight. British claimed their anti-air guns and fighter planes smashed 23 out of a squadron of 100. Nazis claimed they did great damage and their losses were small.

Hitler is endeavoring to starve out the British Isles by attacks on shipping on the water, under the water and in the air. Daily sinking of ships carrying supplies to Britain are said to be high. On the other hand the British used coast ports are still open for shipping as many vessels are plying in and out of the narrow strip of water between France and Britain.

Germany seems to have cowed the Balkans into accepting a settlement of boundary disputes. Bulgaria is to have a slice of Rumania and Hungary is also to get a piece of King Carol's much shrunken land. To keep Russia satisfied Hitler is said to have offered part of German occupied Poland to Stalin.

Death toll in the current heat wave is crowding the mark of 1,000. From the Atlantic seaboard to the plains states intense heat has continued almost without abatement as thermometers in many places register up to and above 100. Largest cause of death has been by drowning as persons seek relief from the heat in the water.

Japan's peace hint thrown out to China has been rejected by the Chungking government. The Japs wanted outright cession of five provinces and recognition of the puppet Wang government set up by the Japanese. Status of Manchukuo would have been left in the balance by the Jap proposals.

Old Home Day Praised by King At Cameron

District Attorney George King was the speaker of the day at the annual Old Home Day celebration in Cameron last Saturday. He spoke of the cementing of friendships and the continuance of the American way of living as evidenced in such gatherings. He pointed out that the world's great peace and happiness is to be found in the community in which life was received, in the school where lessons were learned, in the church where thoughts were centered upon the Savior of all mankind and in the hearts of youthful associates.

He continued "Countless thousands who could gain much by returning to Old Home Days feel the problems of adult life are too pressing to permit the journey. However, it is cause for happiness in knowing that each summer the nation's outstanding men in business, education, science and professions do make it a point to return home.

"Today countless thousands in Europe cry not for an Old Home Day but for a home. There is no thought of harvesting winter crops for the reapers are either dead, or drifting aimlessly.

"That we are at peace is due to the fact our forefathers built this nation on a firm foundation of recognition of the rights of others and everlasting God. That we are in a mighty rearmament program is due solely to our failure to realize that the wealth, happiness and freedom we know is coveted by those who envy our prosperity."

He pointed out that all alien movements here should be stopped and organizations and individuals plotting the overthrow of the government should be deported.

No one knows what dangers we may face, what trials we may be called upon to endure, what sacrifices may be required. We are here to meet here a year hence but we do know that these truly United States have endured every test and will conquer every foe from within or without in the days to come. I do, however, join with you in the prayer that despite the dangers that may arise not one drop of American blood need be spilled on foreign battle fields because our last sacrifice was in vain. With Kipling I say: "Lord God of hosts be with us yet, lest we forget, lest we forget."

Steuben Potato Tour August 20

At a recent meeting the Farm Bureau potato committee selected August 20 as the date and the farms of C. D. Wolcott, Pine Hill; Frank Clark, Lent Hill and Bishop & Babbitt on Olmsted Hill for the second annual tour.

In addition to the rotation experiments which year by year are accumulating information of the best crops in combination for the economical production of quality potatoes, the Wolcott farm offers a trial of minor elements, test of some sixty vitamins thought to influence plant growth, and a variety test in which seventeen sorts and kinds of potatoes are planted.

Last fall Frank Clark of Rockville, Connecticut, selected three farms in the vicinity of Lent Hill Church and there he is growing twenty acres of certified seed. Of particular interest is a twelve-row truck-mounted sprayer and fertilizerizer composed of half a dozen sources of nitrogen.

R. J. Babbitt and Jack Bishop, hosts of the 1939 potato tour at Gardinghouse are growing, on the former Warren Hopkins' farm on Olmsted Hill, one hundred thirty-five acres of half a dozen different varieties. They have planted fifteen acres of tuber units, and soybeans, millet, sudan grass, and crimson, red and alsike clover to plow under for the 1941 crop. They have recently purchased a caterpillar tractor on which is mounted the largest sprayer ever constructed by a certain manufacturer.

Farmers Warned to Post Land Against Thieves

Now is the time to post farm property with vigilance reward signs for protection against stealing according to L. H. Myers, Jr. of Serkirk, chairman of the Farm Bureau Federation's vigilance committee. Myers says that farmers lose thousands of dollars worth of produce annually as a result of thieving. He says that many who help themselves to the farmers' fruits and vegetables probably do not realize that they are stealing for they may take only small quantities. However, when enough persons help themselves the aggregate loss to the farmer may be substantial.

Myers says that there is also the professional thief who causes the farmer much loss. He points out that recently his organization paid a reward of \$25 to a man in the Champlain valley who gave evidence leading to the arrest and conviction of persons found guilty of removing and slaughtering four purebred Holstein heifers from the pasture of a Farm Bureau member. The meat was sold and the money was pocketed and the owner suffered the loss. However, he points out that the Farm Bureau reward helped to get prompt conviction.

Myers says that the purpose of the vigilance signs offering rewards for helping to catch thieves found guilty of stealing from posted property is two fold. First the signs warn careless trespassers that the posted property belongs to an individual and not the public. Second the signs offering rewards solicit the help of the neighbors in reporting suspicious activities.

Myers says that any Farm Bureau member can obtain vigilance signs at the office of his county Farm Bureau and thus secure greater protection from thieving at little cost.

Springwater — A local forester states most street side trees will be dead or badly decayed in ten years and says condition is not local. Many villages permit trees to become decadent. Trees should be replaced.

Lindley Scores 5 to 1 Win Over Addison

Dick Riffle pitched the Lindley entry in the Steuben County League to a victory over the Addison Merchants Sunday to win 5 to 1. The victory was somewhat dulled by the fact that three Addison errors permitted four of the winning runs to be scored. Louie Dominick pitching for the Merchants was given good support until the fourth inning when Willis failed to bend at second and permitted an advance Grange and Manager Hibbard missed easy popups in the outfield which permitted other scoring. The Addisonites were strengthened by the addition of Francis Heidrick at shortstop. Most Addison hits were scattered and kept to the infield, although many Addisonites died on the bags in the second, third, fifth and seventh innings. Addison plays Cato here Sunday.

4-H Members Judge In Two-Day Event

Nearly 100 4-H Club boys and girls, leaders and parents attended the dairy and livestock meetings held Thursday and Friday, July 25 and 26.

The dairy members met Thursday morning at the farm of Edward Heinaman where they judged two classes of Holstein cows and were instructed in the details of judging. Mr. Heinaman, the owner of the farm, gave a very interesting talk on his herd, how he came to be a farmer, and why he chose the Holstein breed.

The dairy members then went to Francis Foster's of Wheeler for lunch and a game of softball, after which three classes of Ayrshires were judged and a demonstration given on how to make a rope halter and fit cattle for exhibiting. Mr. Foster gave an interesting talk regarding the use of Ayrshires and told of various barn plans used in building his new barn.

Five high scoring boys and girls in the judging work were taken to the Western New York Bull Sale at Angelica Saturday, July 27, where they competed for final eliminations in the picking of the Steuben County dairy judging team. This team is composed of Richard Hamilton, Avoca; Tracy Calkins, Avoca; Irwin Townsend, Bath with Loretta Livingston of Avoca and James Wilkes of Bath as first and second alternates, respectively.

Sheep and swine members met Friday, July 26 at the farm of Aaron Putnam, Wheeler. Considerable time was spent in judging hogs. The animals used were furnished by Harold Stewart, Canisteo, well-known breeder of a very fine type of Yorkshire hogs.

After a picnic lunch and various athletic events, those present judged a class of ewe lambs and ram lambs and received instruction and practice in blocking and trimming sheep. Discussion also followed as to methods of feeding and fitting animals for show and for the Buffalo Lamb Sale which takes place in December. Some of the work was also done on horses and beef cattle during the day.

As a result of the judging of sheep and swine, three members and two alternates were selected to make up the Steuben County livestock judging team. They were as follows: Victor Wise, Wallace; George Acornb, Dansville; Junior Fort, Canisteo. Alternates—first, Helen Acornb, Dansville; second, Bessie Acornb, Dansville.

The expenses of both the dairy team and the livestock team will be taken care of by the Bath Rotary Club as a part of the activities of the boys work committee.

Professor H. A. Willman, livestock specialist of the College of Agriculture was present to conduct the work at both the dairy and livestock meetings.

Mr. Payne stated that Stein's have a definite policy which governs the sale and distribution of products in their stores in Elmira, Waverly, Towanda and which will be used in the Corning establishment.

This policy specifically states that "every article in the store is guaranteed new and of first quality, manufactured by nationally known concerns and guaranteed against defects in workmanship or material". He further states that the policy of the store will be "to sell direct to the consumer. The merchandise we sell comes direct from the manufacturer. We do not sell through dealers. We pay no commissions and therefore grant no discounts. Thus the prices will remain the same to all. The store has tremendous buying power, a large volume of business at low operating costs and the savings are passed to the consumer." This policy is so stated in their advertisement. Attention is called to their full page advertisement on another page of this paper.

Mr. Payne, who will be resident manager for Stein's in Corning is married and now lives at 82 E. Third street. He hopes to become affiliated with the life of Corning and to establish himself as a permanent member of the community. Prior to coming to Corning July 1 he was with Steins as assistant manager in Elmira for two years. Prior to that he was with the Sherwin-Williams Paint Company in Cleveland for six years, following graduation from Western Reserve University in Cleveland. While in college he was active in extra-curricular activities.

Stein's in Corning will offer a free gift to everyone, without obligation to buy on Friday and Saturday. In addition they are offering a large selection of general hardware, plumbing supplies, painting needs, heating equipment and household fittings at greatly reduced prices to familiarize people of Corning and vicinity with the stock and prices of Steins in Corning.

More Work Extending County Tax Rolls

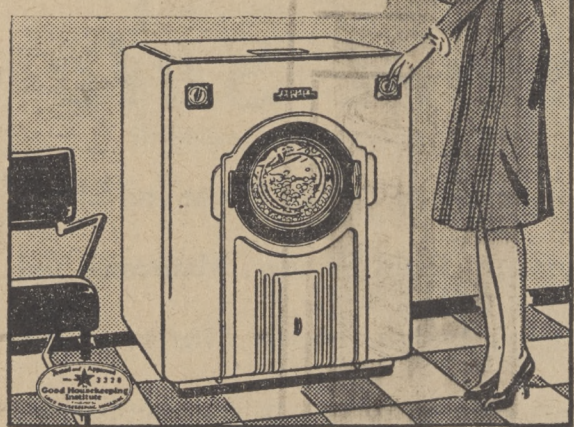

New rulings of the New York State Tax Department may cost Steuben County \$1,200 instead of \$600 as in the past according to members of the Board of Supervisors. The cost will be in extending the tax rolls. Under the new ruling specific tax rates are applied to each assessment to find the taxpayer's share for county, tax, armory and court stenographer's tax share of highway tax and maintenance for town highways and tax for bridges and machinery. The four will be totaled and will indicate the total individual tax.

Horseheads — There must be a wholesome and sound revival of trade to eliminate the country's chief problems, local Rotarians were told by an industrialist.

"The Mortal Storm" At Fox Theatre Saturday

The stellar aggregation, of Margaret Sullivan, James Stewart, Robert Young and Frank Morgan heads the distinguished cast of "The Mortal Storm" film adaptation of the powerful Phyllis Bottome best-seller story of a family caught in the upheaval of a political storm, which will be the headline attraction starting Saturday on the Fox Theatre screen.

Filmed under the direction of

MARGARET SULLIVAN
JAMES STEWART

Frank Borzage, responsible for many of the screen's greatest successes, "The Mortal Storm" unfolds the timely and heart-stirring narrative of a family "somewhere in Europe", happy, contented, tolerant, then suddenly awakening to find itself in the throes of a new order of things resulting from political oppression.

The family divides against itself. The sons become involved in the hatreds and passions of the political movement. The daughter breaks her engagement to the man who has loved her for years. The father is taken to a concentration camp. Dramatic moment after dramatic moment punctuate the story which rises to a powerful climax in the love of the daughter for a man of her own ideals, and their attempt to escape the prison walls of hatred and intolerance around them.

Miss Sullivan, James Stewart and Frank Morgan, the triumphant triumvirate of "The Shop Around the Corner", leave comedy behind to portray roles of stark dramatic intensity in "The Mortal Storm", with Miss Sullivan playing the daughter, Stewart the man with whom she ultimately attempts an escape and Morgan the father of the tragic family. Young has the difficult role of the political fanatic, and important supporting roles are filled by Robert Stack, Bonita Granville, Irene Rich, William T. Orr, Maria Ouspenskaya and Gene Reynolds.

Renken Dairy Absolved Of Underreading Tests

Judge Thomas A. Crichton of Tioga County Court reversed the decision of the late Justice C. E. Irons of Elkland in which the Renken Dairy Company, John Knudsen Wellsboro, division manager and Jens Jorgenson, plant superintendent were found guilty of underreading milk tests according to the decision of Justice Irons. Former superintendents Arnold Ruff and Archie Baker gave testimony that they had been instructed to underread tests. Charles D. Armstrong representative of the Pennsylvania Milk Control Commission brought the charge and Justice Irons assessed fines of \$200 and costs of \$17.54 against the defendants. On appeal, Attorney C. J. Ware, Harrisburg, represented the Commission and Attorneys G. Mason Owlett and Charles Webb, Wellsboro, represented the defendants. The case created a great deal of interest in the milk shed owing to the number of farmers taking milk to that and other Renken dairies.

Mt. Morris — The village lockup passed state inspection and for the first time in years no criticisms were found.

Farm Bureau Host to Orange County Buyers

Some 25 or 30 Orange County (N. Y.) dairymen will visit Steuben County August 5 and 6, for the purpose of inspecting the local herds, and to see the kind of stock Steuben County offers for sale. Numerous herds that are members of dairy herd improvement associations and where cows are known to be for sale are included in the schedule which will take the touring dairymen to all parts of the county.

Since Steuben annually produces a surplus of dairy cows, and Orange County farmers buy rather than raise their herd replacements, this visit is expected to result in a large market for Steuben cows. The trip is sponsored by the Farm Bureau for the purpose of promoting the sale of Steuben County cows.

it at this time. High lights of the calendar are: School opens Tuesday, September 3, close October 11 for teachers' conference, November 11 for Armistice Day and November 21 and 22 for Thanksgiving recess and December 20 at noon for Christmas recess. School will re-open Thursday, January 2, regents week will be from January 20 to 24, second semester begins January 27, school closes February 12 for Lincoln's birthday, close Thursday, April 9 to 21 for Easter recess, close May 30 for Memorial Day, regents June 16 to 20 and commencement June 22 to June 25. This makes 194 teaching days and permits of a day's vacation for music festival and also one day for Bath Fair if needed.

An attempt will be made to publish a school bulletin if information can be secured from the State Education Department relative to changes expected this year in requirements, program and regents. Frank B. Finnerty of the Agriculture Department was given permission to take students to various agriculture programs in the vicinity during the vacation period. These field trips mean the boys can devote a longer period to activities than during the school year.

Mrs. Perry presented specifications for cupboards for the home economics department. They were deemed too elaborate for the local setup and may be used with modifications. The building committee will take action on these.

She also brought to the attention of the board the matter of marking Main Street with signs to warn of the approach to the school. She also questioned the use of the school street for a detour during construction of the new Main street bridge.

Those present Tuesday night were President Maurice E. Miller; trustees, Andrew W. Knebel, Leon Callahan, Belden Ackerson, Mrs. Susan Perry, Clark Baxter and Robert A. Willson, and Principal Irving R. Gladstone.

Catholic Summer School Sessions Ends Today

The summer school for Catholic children being conducted by the Sisters of Mercy in St. Catherine's Church will close today with a picnic for the members of the faculty, children and parents. The school has been of four weeks duration, has attracted over 20 boys and girls daily and the project books have provided much for the students in the way of activity.

The Catholic nuns were heartily thanked for their work by the pastor, the Rev. Patrick Kelly at the Masses Sunday. Homer Reynolds was also thanked for providing 25 pints of milk for the school last week. The nuns are from Rochester and Elmira.

Hi-Lights and Shadows of the Week's News

(Continued From Page 1)

Forty-one men, women and children were burned to death in the crash of a Pennsylvania Railroad gas-electric car and a freight train near Akron, Ohio Wednesday for the second major railroad fatality of the year. The gas-electric car failed to take a switch and rammed the freight headon. The gas tanks burst spraying gasoline over passengers and cars and the freight engine plowed halfway through the car.

Britain appears ready to take a slightly more firm attitude towards Japan as new outrageous attacks are made on British citizens in the Orient. Britain hints at reopening the Burma road. Meanwhile Japan is alarmed over the American threat to cut off scrap iron and high test gas exports to her through the licensing law.

Merle Harper, power lineman was killed Tuesday near Canton, Pa., by a freak accident. Harper touched a high tension wire with his gloved hand at the same instant his climbing spurs contacted a telephone ground wire completing a circuit and electrocuting him.

Headquarters of Wendell L. Willkie report continued promises of support of former Democrats in the coming campaign. Many well known figures in the Democratic party have signified intention of voting and working for Willkie. Antipathy for New Deal methods and opposition to the third term are chief reasons for the defections. Mr. Willkie has signified his intention of stumping the south for electoral votes.

A movement is on foot to modify the Burke-Wadsworth conscription bill. Growing opposition to the sweeping nature of the proposed law will undoubtedly bring prolonged debate in the Senate and may limit the scope of the measure. Opponents of conscription are trying to replace the measure with legislation allowing the President to call out the National Guard and Officers' Reserve Corps for training.

Chosen GLF Directors at Annual Meet

caused a break down in the spirit of America. But the spirit still exists. To survive may mean surrender of certain rules and regulations temporarily to bring about a proper defense.

"Farm production must be done under direction but it must be sincere and based on a country for free men. The farmer will uphold his end. Through the organization we have we can be heard and we will get results no matter what the sacrifice.

"The GLF is a democracy. You delegate powers to your committees who in turn elect 13 directors who hire the managers of your company.

"The GLF was organized in 1920. At that time 150,000 tons of business was the volume. From 1927 to 1931 the volume increased to 700,000 tons and from 1936 to 1940 it has been over a million tons. Of this 856,000 tons is feed, 18 per cent in lime, eight and one-half per cent in fertilizer, five and three-quarters percent in farm supplies which amounted to \$4,000,000, one per cent in dusts and grit and one per cent in seeds which amounted to 11,746 tons, and less than one per cent for flour and cereals or 8,500 tons.

"A growing division is the petroleum and gasoline. Last year over 11,250,000 gallons of gasoline were sold. The total margin this year was \$2,000,000 of which \$400,000 was paid on the long term debt and \$350,000 was put in reserve for improvements and working capital. This year \$1,250,000 was returned to patrons.

"Liberties of farm life must be defended against forces from without and unchecked bureaucracy from within."

Mr. Kelsey then showed colored motion pictures of prize farms and milk herds in the Metropolitan milk shed. Clifton Rounds and Ray Youngs acted as tellers in the elections. Six were nominated for the two directorships. Ice cream and cookies were served at the close of the meeting. Dividend checks were distributed for store and mill.
